

Rain...Rain Go Away

*Rain...rain go away
Come again
Some other day.*

**On second thought
You had better stay
We need you now
In every way.**

**You see, we're having
A terrible drought
We beg you please...
Open wide your water spout.**

**Our reservoirs are at
An all-time low
There is not much water
In the melting snow.**

**Without water
Plants can't grow
Fish can't swim
And rivers can't flow.**

**Rain...rain
DON'T go 'way
We need you now
More than we can say.**
